DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-4, 7-9 and 13-18 are rejected under 35 U.S.C. 102(b) as being anticipated by Pond 5,139,143.

Pond teaches a padded carrying portfolio comprising a sheet of flexible material 10, a plurality of compartments 90, securing 75 and carrying 85 means, and closure means 100. The carrier is formed of flaccid material that may be waterproof and contain padding (see specification) and is folded up in the manner as claimed (see figure 6).

3. Claims 1-20 are rejected under 35 U.S.C. 102(b) based upon a public use or sale of the invention. The declaration under 37 CFR 1.132 by Marilyn Valdez-Campbell states that in 1992 the invention was given to a co-worker's daughter for her birthday. This is a public use more than one year before the application for patent. It also appears from the declaration that a second public use occurred in 1998 in view of the four carriers that were given out.

4. An issue of public use or on sale activity has been raised in this application. In order for the examiner to properly consider patentability of the claimed invention under 35 U.S.C. 102(b), additional information regarding this issue is required as follows:

Applicant must supply detailed information involving the two occurrences mentioned

above in paragraph 3 including: Information of who became aware of applicants invention during the above occurrences, and what if any confidentiality agreements were reached with those who came in contact.

Applicant is reminded that failure to fully reply to this requirement for information will result in a holding of abandonment.

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 5, 6 and 11 are rejected under 35 U.S.C. 103(a) as being unpatentable over Pond 5,139,143 in view of Gray D 297,283.

Pond teaches the claimed invention except that that the manner in which the pockets 100 are closed is not specifically mentioned. Gray teaches a similar carrier in which the pockets are closed with a flap that is secured by a snap (see figure 6) in the manner as claimed by applicant. It would have been obvious to close one or more of the pockets of Pond in the manner as taught by Gray since both inventions teach alternative art equivalent means for closing interior pockets on a multi compartment carrier.

Response to Arguments

7. Applicant's arguments with respect to claims 1-18 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
